

Passion for Evangelism

Vision

Passion for Evangelism exists to empower, encourage, and equip women to share the good news of Jesus with God-given confidence and creativity.

Mission

Passion for Evangelism (PFE) is a Christian network, passionately engaged in developing women, through training, mentoring, and support, to effectively communicate the gospel of Jesus in public.

Values

We depend on God

Our commitment to prayer, as an expression of faith and dependence on God, is integral to all we do.

We celebrate Diversity in Unity

Recognising differing views of women's roles in ministry, we welcome all who unite around the central truths of the gospel*.

We welcome women from different church traditions and denominations, different life stages, and different cultural contexts.

We partner with churches, like minded organisations.

We encourage women and men to serve together in ministry believing that, in working together, God is most fully honoured.

We aim to release to the local church, women equipped.

We depend on God.

We Celebrate Diversity in Unity.

*PFE adopts the Evangelical Alliance Basis of faith.

We are Active in Partnering

We partner with churches, like minded organisations and individual Christians in the UK and beyond.

We encourage women and men to serve together in ministry believing that, in working together, God is most fully honoured.

We aim to release to the local church, women equipped to serve in evangelism.

We believe/affirm that godly character and ministry effectiveness are inseparable, we desire to live lives consistent with the gospel we communicate.

Therefore we will:

- honour others and be generous towards them
- listen first to understand one another and to learn from each other
- speak honestly and hold out grace towards each other
- care, support and build up one another within the context of PFE
